

## LANDSCAPE RESEARCH GROUP

*Esteemed Member!*

*Can you help me with this set of questions. I am keeping it informal. As you see in LRExtra 40 the Group is trying to improve its activities. Any information here will go no further than the Group. Some information, like your address, we have in another list but for my convenience can you give it here. If you want to write on a new sheet of paper just preface with the question numbers. Long hand is fine.  
**Bud Young 26 Cross Street Moretonhampstead Devon TQ13 8NL (stamp supplied)***

1 Your names and how you like to be called

2 Where you live (address) and what is your 'home area'. Can you offer an email address and if so what is it (legibly if possible!)

3 Your reason for taking an interest in:

- landscape
- the Landscape Research Group

4 Your background in landscape or any of many related subjects (geography, photography, psychology, art, forestry, hillwalking, music, habitat, landscape history) and your particular interests.

5 Do you have any "letters after your name" or particular training in landscape matters or do you relate to landscape in an intuitive way (like the poet John Clare)

6 Are you involved in any form of research into landscape or locality in the widest sense?

7 Do you claim any particular skill or special pastime? Are you a potential book reviewer?

7 Age always a sensitive question! If you are happy to give an age or age range it would help me in profiling the membership.

9 How long have you been an LRG member?

10 Do you read Landscape Research right through, pick up on particular articles, read abstracts only? Do you read its book reviews?

11 Do you read/keep Landscape Research Extra?

12 Of Landscape Research Extra is there anything that you feel we do not adequately cover and would like to see?

13 Would you be interested in sending me half or one page articles, notes or other material for me to publish or to write up?

14 Do you attend conferences, seminars or other events? If so, do you usually have to pay your own way or seek money from an institution?

15 Would you support LRG events or joint events (with other groups)? How far (in time terms) would you be prepared to travel for them?

16 Can you identify what kind of event you might attend from among:

- Larger events – conferences
- Smaller events – small workshops or taught seminars on particular themes
- Field based 'landscape enquiry' drivearound events – holistic view of particular landscapes.
- Membership get-togethers with a theme (nowadays called Fests!).

If yes to any of the above how long might you spare -- one day, two days?

17 Are you a member of any other "learned society"?

18 Do you subscribe to organisations such as National Trust, RSPB, RHS, county naturalists trust, Ramblers, CPRE, the Picturesque Society or others?

19 Anything else you want to say?
